TERRITORIAL DELEGATES.

They Grow Enthusiastic While Speeding Across the Plains of Kansas and Are Confident of Success.

New Mexico and Her Needs Will be Placed Before Congress in a True Light—The Whole Number of Delegates is 38.

Special to the New Mexican.

NEWTON, Kan., April 22.—The New Mexico delegation on board train is as follows: Gov. Prince, Judge Axtell, S. E. Booth, Col. W. G. Marmon, E. W. Spencer, A. D. Coon, Geo. H. Cross, Trinidad Alarid, Geo. H. Utter, T. B. Mills, J. B. Victory, L. C. Tetard, L. M. Bond.

The following are on the train ahead and will meet our party in Kansas City: C. H. Gildersleeve, Joshua Reynolds, Richard Dunn, A. J. Bahney, Gen. E. L. Bartlett, Major Llewellyn, W. C. Wrigley, Jesse Anthony, F. N. Smith.

The delegates already in Washington are: Hon. H. L. Waldo, Gov. Stover, Judge Trimble, Hon. Chas. B. Eddy, J. C. Lea, J. K. Livingston, F. Lowenthal, Gen. J. A. Williamson.

S. L. Houck and W. H. Kennedy, two additional delegates from Santa Fe county, will follow on to-night's train from Las Vegas.

Jas. A. Lockhart, of Deming, had his grip packed to start when his residence took fire and was destroyed.

Hon. J. A. Whitmore and Judge S. B. Newcomb send word they are coming.

Dr. Shuler is expected to join the party at Raton.

Among the delegates the greatest enthusiasm prevails.

President F. A. Manzanares, of the bureau of immigration, met the party at Las Vegas and bade them success and God-speed.

The complete delegation will number about thirty-eight upon arrival at Washington.

Good Crop Prospects.

WASHINGTON, April 22.—The weather crop bulletin issued by the signal service says: The weather during the past week has been especially favorable for farm work throughout the northwest, where the sowing of small grain is substantially completed. As far north as southern Minnesota and southern Dakota the crops have improved by the favorable weather.

In Kansas, Missouri, Nebraska and Iowa wheat, oats and grass are reported to be in good condition. But more rain is needed from the Missouri valley northward over Minnesota. In Michigan, Illinois, Indiana, Kentucky, and Tennessee the growing crops are greatly improved. The reports from Oregon indicate that the season is late, although favorable for fall wheat. Freezing weather occurred in this section during the week.

CONGRESSIONAL.

SENATE.

WASHINGTON, April 22.—In the senate Reagan introduced a bill to repeal all laws for the retirement of army and navy officers from active service on pay.

Hamb introduced a concurrent resolution directing the secretary of the treasury to increase the purchase and coinage of silver bullion to the maximum amount authorized by the act of February 28, 1878, and gave notice that he would ask for its consideration to-morrow.

The senate then took up the house world's fair bill. The only amendment reported by the senate committee is the insertion of a new section providing for a naval review in New York harbor on April, 1893, and the unveiling of a statue of Columbus at Washington.

In the house Dorsey, of Nebraska, introduced a joint resolution that the secretary of the treasury be directed to increase the treasury purchase of silver bullion to the maximum amount authorized by the act to authorize the coinage of standard silver dollars and restore its legal tender character that was passed over the veto of the president and became a law February 28, 1873.

A bill was passed that provided that soldiers who lost limbs during the late war shall be entitled to receive an artificial limb every three years. The present law permits them to receive limbs every five years.

Representative Vandever, of California, appeared before the house committee on foreign affairs this morning to advocate the adoption of his first resolution requesting the president to open negotiations with Mexico for the promotion of commercial and friendly relations, and for the adjustment of boundaries. He described the unsettled state of affairs in zona libre and pointed out the necessity for a speedy adjustment of the boundary question. He referred to the increasing number of illegal entries of Chinese across the border. All of these might be satisfactorily settled by negotiations with the Mexican government, through the medium of a commission to be appointed by the president. This commission could also ascertain and construe the meaning

of existing treaties and make necessary provision for reforming them.

Extinction of Slavery.

LONDON, April 22.—Arrangements are in a forward state for a new expedition to the dark continent. It will start from here early next month. Though much of the equipment of the party has been arranged for in London the expedition had its birth in Sweden and will be named by Swedes. The leader of the new crusade is Nils Johan Zachrisson. His plan is to proceed from Mozambique to the northeast of Lake Tanganyika in the Victoria Nyanza, erecting on the way a series of stations as a means of suppressing slave trade. Zachrisson has engaged a body of four Swedish artisans, who have bound themselves to accompany him on a three years' expedition. In addition to the Swedes some 1,500 native carriers will be required. The stations which will be erected will be placed in a state of defense, garrisoned by natives under command of Europeans, and ready in places of refuge for tribes in case of raids made upon them by the slavers. Every station will also be made a center of commerce with the natives. It is estimated that a sum of \$200,000 will be required to finance the undertaking. The greater part of this amount has been already subscribed, and the balance when required will be forthcoming.

Ingersoll's Cuff Buttons.

NEW YORK, April 20.—A cable from Rome to the Times says: Col. Robert Ingersoll is the innocent cause of the disfigurement of the statue of Giordano Bruno. Some of his friends thought it well to make him a present of a pair of cuff-buttons made of bronze stolen from the wreath which adorns the head of that statue. There is no doubt bronze from the statue of the old martyrs to free thought would be most welcome to the great American agnostics, but the manner in which that bronze was obtained does not become more commendable on that account.

In a Trance.

JEFFERSONVILLE, Ind., April 20.—On Wednesday morning Willie Russell, colored, aged 14 years, fell in a trance, and until this morning remained in that condition. When he awakened he claimed to have had a wonderful vision and began to preach repentance. He also predicted more cyclones and dire disasters and the coming of the judgment day. He is an intelligent colored lad, and his queer delusions are striking terror to the hearts of the colored population, many of whom think he is a prophet.

They Were Discharged.

NEW YORK, April 22.—Ollie Friend, Emily Howard, George Halstead and Orrin A. Halstead, who were held for sixteen months on charges of being connected with the fraudulent electric sugar refinery scheme, were discharged to-day. Friend, the originator of the fraud, is dead. W. E. Howard is serving a ten years' sentence for his hand in it. Mrs. Friend and Mrs. Howard were the wives of these men. Halstead was merely a mechanic employed to set up machinery.

Love on a House-top.

NEW YORK, April 20.—John A. Griffin this afternoon began a flirtation with some young women on the roof of 133 East street. They beckoned him over and he went up stairs to 61st street, but finding the women on the adjoining roof, tried to climb across the picket fence over the shaft between the houses. The railing broke and he fell down the shaft six stories. He was instantly killed.

The Professor is Sick.

NEW HAVEN, April 22.—Prof. Wm. G. Sumner, Yale's well known professor of political economy, after leaving the class room at noon yesterday dropped suddenly ill on the campus. He was picked up unconscious. The physicians announced that his trouble was caused by a disordered stomach. While he may not be in danger of death, still his condition is serious.

Rather Fishy.

CHICAGO, April 22.—A special from Birmingham, Ala., says that Louisa Worcester, the mistress and confidant of J. Wilkes Booth, assassin of President Lincoln, declares that Booth is not dead, and that she received a letter from him two years after his alleged death.

Didn't Murder Cronin.

CHICAGO, April 22.—The indictment against Frank Woodruff, alias Black, charging him with complicity in the murder of Dr. P. H. Cronin, was dismissed to-day by consent of the state. The indictment for horse stealing is still pending against him.

General Hopkin Dead.

PROVIDENCE, R. I., April 21.—Gen. William Warner Hopkin died Saturday, aged 82 years. He was governor of Rhode Island in 1834-5-6, and was a graduate of Yale and practiced law before he held public office.

CONDENSED NEWS.

Bar silver is quoted at 99 3/4. Four French pickets were beheaded by Dahomians.

The crown prince of Rome was injured in a railroad accident.

Forepaugh's circus opened its season yesterday at Philadelphia.

All carpenters at Sharon, Pa., have struck for nine hours a day instead of ten.

Conell Brace, a noted member of the turf, and the breeder of St. Gatene, winner of the Derby in 1884, committed suicide in London by shooting.

The Inman line steamship, City of Berlin, unloaded part of her cargo this morning, without having entered at the New York custom house. The customs authorities seized the vessel.

WASHINGTON MATTERS.

DEMOCRAT'S CAUSING.

WASHINGTON, April 22.—A caucus of the Democratic senators was held this morning and a resolution adopted to appoint a committee to take charge of the interests of the minority in matters of legislation.

AN ADDITIONAL JUSTICE.

Among the bills placed upon the senate calendar to-day was a senate bill to provide for an additional associate justice of the supreme court of Arizona.

OLEOMARGARINE.

In the case against the Fairbank Canning company, of Chicago, for the infringement of a patent in the manufacture of oleomargarine, the United States supreme court held that the patent granted by the United States to Hippolyte Mege, for the invention of the process, expired with the expiration of his American and Bavarian patents. The last residue of the patents is therefore invalid, consequently the Fairbank company are not infringers.

RELIEF FOR THE SOUTH.

To-day Secretary Proctor transmitted to the house the report of the quartermaster general in regard to the condition of affairs in the overgrown district in St. James and Ascension parishes, La. Gen. Robinson says that in the St. James parish, in the neighborhood of Great Nita crevasse, everything is flooded for miles. The situation is deplorable. Hundreds of planters have lost their crops, and thousands of laborers will soon be thrown out of employment. At Grand Point, where there are sixty or eighty families, the people escaped in skiffs and the whole precinct is under water. He recommends instant action for the relief of the sufferers by the United States. There are hundreds of St. James and Ascension parishes 5,000 persons destitute within a month.

SANTA FE COUNTY BILLS.

Delegate Joseph, of New Mexico, has introduced in the house by request a bill annulling an act of the 28th legislative assembly of the territory of New Mexico entitled "An act to define the boundary lines of Santa Fe county," made a law by limitation on February 28, 1889.

OKLAHOMA BILL.

The week will open in the house with the Oklahoma bill, which has been reported by the conference committee. After it the remainder of to-morrow's session will be consumed by a consideration of these matters besides, however, upon the action of the Republican caucus to-morrow night.

CONSIDERING IT.

The program in congress for the present week contemplates consideration of the legislative, executive and judicial appropriation bill on Tuesday, and this may be followed by the bankruptcy bill, or the bill to amend New Mexico. The consideration of these matters depends, however, upon the action of the Republican caucus to-morrow night.

ARMY DESERTIONS.

Reports received at the war department for nine months beginning with the fiscal year July, 1889, shows there has been 1,378 desertions from the regular army during that period. For the corresponding month of the previous year there were over 1,800 desertions. Reduction this year over 10 per cent. The percentage of desertions to enlisted strength of the army have been for this period 61-10 per cent. Secretary Proctor has taken an active personal interest in the subject and is laboring diligently to reduce this evil, with some success. He has shown the house has already passed this in the line of the secretary's suggestions, and he believes it the same pass the senate and becomes laws they will enable him to accomplish much more in this direction.

THE ALCOHOLIC GRANT.

Delegate Smith, of Arizona, from the house committee on private land claims, has reported favorably the bill of the house heretofore the El Paso de los Alamos grant in Arizona and restoring the same to the public domain.

The Irish Land Purchase.

LONDON, April 22.—In the house of commons to-day Parnell moved that the Irish land purchase bill be rejected. He said the measure justified the claims of the nationalists, made nine years ago. He welcomed Balfour as the latest recruit to the ranks of the land reformers. While accepting the government's recognition of the principle of land for the people, Parnell declared that he could not admit that the bill was a satisfactory solution of the land question. The land question was how far the British tax payer would go in lending credit to the Irish landlord. The experience gained by the discussion of the Gladstone land bill, in 1886, had showed that the tax payer would not go far enough to finally settle the land difficulty. The present bill was meant simply to enable one-fourth of the owners of the land in Ireland—these being larger absent landlords—to sell out at exorbitant prices, and leaving the poor resident in the lurch.

Fishing in New Foundland.

HALIFAX, April 22.—New Foundland advises state that the government has decided for this season only, to adhere to the present bait act, which is to be carried out under licenses by which all foreigners will be permitted to purchase one barrel of bait per ton of their register, on the payment of tonnage.

Captain Couch Dead.

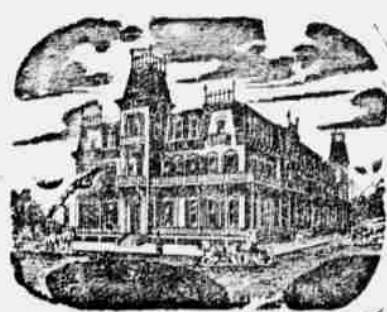

GUTHRIE, I. T., April 22.—Capt. Couch, widely known as the organizer of the Oklahoma movement, died this morning. He died was caused by a bullet wound, inflicted by J. C. Adams in a quarrel April 4. Adams was taken to Wichita to prevent lynching.

Big Blaze.

LOUISVILLE, April 22.—The little town of Harrodsburg, Ky., was almost completely wiped out by fire last night. Damage, \$150,000.
